### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Re claims 1-15 and 17-20, the feature of the circuit board has a tubular portion receiving opening, that penetrates through the circuit board in the axial direction of the output shaft to receive the tubular portion of the stator base and which is elongated in a direction perpendicular to the axial direction of the output shaft, so that at least a portion of the inner peripheral edge of the tubular portion receiving opening is spaced away from the tubular portion, in combination with the other limitations present, are neither disclosed nor taught by the prior art of record.

Re claim 16, the feature of the at least one sensor receiving opening, that penetrates through the base plate from a first side to a second side of the base plate in a direction parallel to the axial direction of the output shaft to receive a corresponding one of the at least one rotation wherein the circuit board is located on the first side of the base plate, the sensor plate is located on the second side of the base plate, and each of the rotation sensors protrudes from the corresponding sensor receiving opening on the second side of the base plate to receive the portion of the sensor plate between the opposed arms of the rotation sensor, in combination with the other limitations present, are neither disclosed nor taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
